Synopsis: This week's meeting minutes were used to discuss how each of our sections of the development project are going and how we are going to wrap up the requirements and acceptance tests.

Recent Individual Accomplishments:

Ryan: Making the connection between the keyboard GUI and the physical keyboard even more rock solid than it ever was before, and reviewed the content for the midterm

Abel: Made heavy progress on the development project! 🍌

Beyza: Updated the piano GUI to make it look nice and spicy, reviewed content from the midterm. Finished sections 18-19 on the development project report.

Edward: Finished sections 10-13 of the development project report.

Current Individual Activities:

Ryan: Finalize the the design pattern and goal for the the way that the notes will slide down the track

Beyza: Work with the team to make the piano GUI light up given a set of functions that control it.

Edward: Work on the user login aspects of the coding project.

Abel: Coordinate with Ryan this upcoming Monday for previous individual action items discussed in earlier WMM.

Individual Action Items:

Ryan: Meet with Abel to decide on a final design pattern for the method of making the notes slide down the track. And chillax

Beyza: Develop functions that will light up the piano GUI when called, or darken the piano GUI when called.

Edward: Use break to consider how user login will work for our piano application.

Abel: Make monumental progress on the coding project so our group can relax the rest of the semester.
